Professional Summary

Results-driven **Senior Software Engineer** and **Technical Team Lead** with **7+ years** of experience in designing, developing, and deploying enterprise-level applications. Expertise in .NET (Core, MVC), C#, JavaScript, TypeScript, Angular, ReactJS, and cloud technologies (AWS, Azure). Skilled in **Agile development**, **CI/CD automation**, and **team leadership**, ensuring **scalable** and **high-performance** solutions. Passionate about **innovation** and **driving efficient** software delivery in **fast-paced** environments.

Technical Skills

- **Programming Languages:** C#, VB.NET, JavaScript, TypeScript, T-SQL, AJAX
- **Frameworks & Technologies:** .NET 6/7/8, ASP.NET Core, MVC, Entity Framework Core, Web APIs, RESTful APIs, Microservices Architecture, API Integration, Software Architecture, Infrastructure as Code (IaC)
- **Frontend:** Angular, ReactJS, jQuery, Bootstrap, CSS, HTML5, Telerik/Kendo UI, DevExpress, Syncfusion
- **Databases:** MSSQL (2014-2019), ADO.NET, Entity Framework, Views & Stored Procedures, SSRS, Crystal Reports
- **Development Practices:** OOP, SOLID Principles, Design Patterns, Object-Oriented Analysis, Data Structures & Algorithms
- **DevOps & Cloud:** AWS, Azure, CI/CD Pipelines, Jenkins, GitHub Actions, Docker, Kubernetes
- **Testing & Automation:** Unit Testing (NUnit, MS Visual Studio Test Tools), API Testing
- **Tools & Platforms:** JIRA, Bitbucket, Git, Agile Coaching/Scrum, Postman/Swagger, MS Visual Studio, VS Code
- **Communication & Languages:** English, Urdu (Fluent - Professional Proficiency)

Experience

Graymath Technologies Co. – Lahore, Pakistan — Oct 2021 - Present

Senior Software Engineer | Technical Team Lead

Key Role:

- **Sprint Planning & Agile Development:** Led a team of 6 developers in Agile sprint execution, **reducing sprint cycle time by 25%** and **deployment failures by 40%**.
- **User Story Refinement & Scrum Management:** Refining user stories and managing Scrum processes by facilitating ceremonies, conducting impact analysis, and fostering cross-functional collaboration. Optimizing requirement-to-code translation, reducing time by **30%** for improved efficiency.
- **AWS Application Deployment & Cloud Management:** Implemented automated cloud monitoring and optimization, improving scalability by **35%.**
- **CI/CD Pipeline Implementation:** Automated CI/CD pipelines using **Jenkins/GitHub Actions**, improving deployment speed by **30%**.
- **Software Development & Team Management:** Lead and mentor development teams, ensuring adherence to coding standards and best practices. Facilitate discussions to analyze challenges and provide optimal solutions, minimizing the risk of failure.
- **Full SDLC Management:** Oversee the **Software Development Lifecycle (SDLC)** from requirement analysis to production deployment. Reduced deployment failures by **40%** through improved code reviews and quality assurance processes.
- **Hands-on Development & Deployment:** Actively contribute to application **coding, debugging, and deployment,** ensuring seamless software integration.

PROJECTS:

- **ADAX (Australian Digital Asset Exchange):** A FinTech platform for managing investors, loans, borrowers, advisors and deals/funds, featuring advanced reporting and analytics.
- **Pie in the Sky (Subscription Manager for ADAX):** An on-demand subscription management system for **ADAX** enabling automated handling of subscriptions and payment workflows.

Next IT & Systems – Abu Dhabi, UAE — July 2019 – Jun 2021

Senior Software Engineer

Key Role:

- **Architected, developed, and optimized** enterprise-grade **.NET applications,** ensuring **high performance, scalability, and reliability.**
- **Led technical documentation efforts,** creating comprehensive **system enhancement reports, bug fixes, and solution roadmaps.**
- **Collaborated with clients and stakeholders** to gather **requirements, analyze business needs, and translate them into functional software solutions.**
- **Conducted meetings and delivered application demonstrations** to stakeholders, showcasing **system capabilities and enhancements.**

PROJECTS:

- **Asset Management System (Client: Emircom LLC)**
- **Survey Application (Client: ADNOC)**
- **Insurance Application (Client: RAK Insurance)**

Clarins Groupe Middle East – Dubai, UAE — Jan 2019 – Jun 2019

Software Engineer

Key Role:

- **Requirement Gathering & Testing** for **Nintex SharePoint Online Portal** to ensure optimal functionality.
- **Support & Maintenance** for **Cigid Y2 (POS) Application**, including updates, bug fixes, and technical documentation.
- **Client Support & Hotfix Deployment** to resolve issues and enhance system stability.

PROJECTS:

- **POS (CIGID Y2)**
- **Nintex SharePoint Online Portal (ERP)**

Shayan Solutions – Lahore, Pakistan — Jan 2017 – Nov 2018

Dot Net Developer

Key Role:

- **Design, develop, test, and deploy .NET applications**, ensuring optimal performance and functionality.
- **Identify, troubleshoot, and resolve software issues**, delivering reliable support for system stability and efficiency.
- **Work closely with project managers to ensure software solutions are delivered on time, within scope, and meet quality standards.**

PROJECTS:

- **Cafe Management System:** Developed a cloud-based solution for **sales tracking, stock management, and automated inventory alerts**, enabling real-time monitoring of live sales.
- **Point of Sale (POS):** Built an online order-taking system with real-time transaction processing.
- **Lab Management System:** Designed a system for managing test records, patient data, and reporting automation.

AlphaTech Consulting International – Lahore, Pakistan — Sep 2015 – Nov 2016

Associate Dot Net Developer

Key Role:

- **Develop, test, and deploy .NET applications**, ensuring **high performance** and **functionality**.
- **Diagnose, troubleshoot, and resolve software bugs**, providing client support for system **stability** and **efficiency**.
- **Collaborate with project managers** to deliver software solutions within **scope**, **timeline**, and **quality standards**.

PROJECTS:

- **AHT Traders (Accounting ERP):** Comprehensive financial management solution for traders.
- **Hospital Management System (Healthcare ERP):** Integrated patient, billing, and hospital operations management.
- **AKB Mills (Inventory Management System):** Optimized stock control, procurement, and inventory tracking.

Education

Bachelor of Science in Computer Science	The University of Lahore	Lahore	2011 - 2015
Intermediate in Computer Science	Govt. College Civil Lines	Lahore	2009 - 2011
Matriculation in Science	Al-Dawah Model High School	Lahore	2007 - 2009
